

The Miracle on 29th Street

“By seeking other’s gifts, we help to reveal a common wealth.”—Mark Kesling

During these hard economic times, it is sometimes difficult to see the good within ourselves, other people and therefore the community. It is so easy to focus on what is wrong in our lives, while at the same time, much harder to find the positives that produce hope and change. The Miracle on 29th Street is an initiative designed to tear down all the walls, highlight individual talents and utilize those talents in order to bring the community together; above all else, it guarantees that *connections are made and everyone prospers*.

Prosper is a word which embodies this project. It means to “flourish or thrive” -- whether internally, spiritually or amongst others -- and to grow and help others grow. To prosper is about the perception of success in all aspects of life, to identify and bless what is good in our lives.

The core goals of The Miracle on 29th Street include a healthier community, an improved graduation rate among high school students, and a more stable economy. In order to accomplish the goals of the initiative, we listen for and seek the talents, trades, skills and dreams of individuals in our community. As we connect individuals and their gifts, our economy improves, thereby fulfilling the dreams we all have for a healthy, joyful community.

At the heart of the Miracle on 29th Street are many individual missions designed to further strengthen and enhance the overall dream of the Miracle. The Miracle is lived out through the music and arts; neighborhood and community ministries; children and youth ministries; care for the church building and grounds; Broadway Foundation growth; and membership development and discipleship.

We are seeking dedicated, compassionate, innovative, passionate, enthusiastic, creative and committed individuals to partner with us in helping realize the Miracle on 29th Street. We will keep you informed of our successes by sharing stories of the connections we’ve made, how our community is prospering and how our Miracle is helping to strengthen our economy.
